Professional Objective:

I am seeking challenging opportunities as a software developer, where I can apply my experience and skills in HTML, CSS, and JavaScript. I am interested in expanding my knowledge in other front-end technologies such as Vue.js and React to enhance my skills in this area.

Academic Background:

- Bachelor of Computer Science, UNIP, [interrupted in 2021 due to the pandemic]
- Technical Course in Mechatronics, Etec [completed in 2018]

Professional Experience:

- No professional experience in programming.

Personal Projects:

- **Presentation Page:** Using HTML and CSS languages, I created a responsive page that showcases my profile, containing interactive icons with links to my LinkedIn, GitHub, and Instagram. Additionally, I included some images of the technologies I have been studying so far.
